LAVANYA CHAND

Frontend Developer | **React.js** | **Next.js** | **React Native** | **TypeScript**
Hyderabad, Telangana | lavanyachand113@gmail.com | GitHub | Portfolio

PROFESSIONAL SUMMARY

Frontend Developer experienced in building responsive web and cross-platform mobile applications using React.js, React Native, Next.js, and TypeScript. Skilled in reusable component development, REST API integration, state management, and UI/UX design. Contributed to production mobile application development and independent web projects featuring authentication and interactive user experiences.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, HTML, CSS, Python
Frontend & Mobile: React.js, Next.js, React Native, Tailwind CSS, Vite, shadcn/ui, Responsive Web Design
State Management: React Context API, Custom Hooks, Zustand
APIs & Backend Services: REST APIs, Axios, Appwrite, Firebase Authentication
UI & Forms: React Navigation, React Hook Form, Zod, React Native StyleSheet, Figma
Testing & Tools: Jest, React Test Renderer, Git, GitHub, ESLint, Prettier, Husky, Vercel

PROFESSIONAL EXPERIENCE

Resilience Inc. *Remote*

Frontend Developer *Jul 2025 - Present*

iRize: Disaster Relief Housing Application

- Refactored location and geocoding infrastructure across four React Native screens, consolidating duplicated logic into a shared useUserLocation hook and three utility modules.
- Reorganized approximately 3,000 lines of code across 10 files, improving maintainability and consistency in location handling.
- Implemented a host onboarding House Rules interface with reusable components, configurable preferences, time-range validation, and React Context state management.
- Resolved Android dependency compatibility issues by removing forced Google Play Services version constraints from Gradle configuration.
- Implemented an initial Messaging List interface with navigation, search highlighting, and dark-mode support.
- Reviewed pull requests covering UI consistency, application structure, and React Native upgrades.

UX Designer *Jan 2025 - Jun 2025*

- Designed iRize mobile interfaces in Figma, progressing from low-fidelity wireframes to high-fidelity interactive prototypes.
- Conducted survey-based UX research, developed user journeys, and refined designs through feedback and iteration.

AI Software Engineer Intern *Aug 2024 - Dec 2024*

- Implemented audio preprocessing and signal processing techniques using Python for AIMEE, an AI-powered mindfulness mobile application.
- Contributed to machine learning model training and evaluation workflows supporting application development.

PROJECTS

Skinstric A.I. Live Demo | GitHub

Next.js, React, TypeScript, Tailwind CSS, Zustand, Zod

- Developed a responsive skincare recommendation application featuring multi-step workflows, camera/gallery uploads, and personalized skincare routines.
- Integrated REST APIs for simulated facial demographic analysis using Base64 image uploads, editable prediction results, and form validation.

Postgram Live Demo | GitHub

React, TypeScript, Tailwind CSS, Appwrite

- Developed a responsive social media application featuring authentication, post creation and editing, likes, saved posts, and user profiles.
- Integrated Appwrite for authentication and database operations.

Binge Buddy Live Demo | GitHub

React, Vite, CSS, TMDB REST API

- Built a responsive movie discovery application featuring API-driven listings, search, sorting, movie details, and official trailer playback.

EDUCATION

Master of Science in Computer Science
Saint Louis University, St. Louis, Missouri, USA

Bachelor of Technology in Electronics and Communication Engineering
MLR Institute of Technology, Hyderabad, Telangana, India
